Higher School of Engineering and Technological Studies – Tunis   *Graduated June 2025*
   National Diploma of Engineering in Computer Science

Higher Institute of Technological Studies - Kelibia   *Graduated June 2022*
   Bachelor's Degree in Information Technology

PROFESSIONAL EXPERIENCE

YooScriptDigitalSolution – *Final Year Intern - Project: MS-LEARNING*   *February 2025 – June 2025*
- Designed and developed a full-stack E-Learning web platform from scratch.
- Developed a RESTful API for managing courses and users, and implemented secure JWT authentication.
- Built a dynamic, interactive user interface using React.js.
- Established a complete DevOps infrastructure (Docker, CI/CD, ELK) to automate and monitor the application lifecycle.
- Integrated a Python-based AI service (Whisper) for video content analysis and transcription.

Summer Internship – *Project: E-COMMERCE*   *July 2024 – August 2024*
- Developed and implemented a complete e-commerce solution including catalog, cart, and order management.
- Designed and built a robust back-office to manage products, users, and orders.
- Implemented customer authentication and integrated the Stripe payment solution.

BNS ENGINEERING - *Bachelor's Final Year Intern - Project: BRNSMART TRAINING CENTER*   *February 2022 – June 2022*
- Designed and developed a comprehensive training management platform.
- Built a back-office in WordPress for managing registrations, accounts, and payments.
- Programmed dynamic management logic with PHP/MySQL for authentication and forms.
- Developed interactive dashboards for activity tracking and created public/private interfaces.
