EDUCATION

Higher School of Engineering and Technological Studies – Tunis
National Diploma of Engineering in Computer Science

Graduated June 2025

Higher Institute of Technological Studies - Kelibia
Bachelor's Degree in Information Technology

Graduated June 2022

PROFESSIONAL EXPERIENCE

ATLARGE– FullStack Developer - [Atlarge](#)

February 2026 – Now

- Architecting and maintaining full-stack web applications for interactive front-end interfaces and server-side logic and database management.
- Leveraging GitLab for advanced version control, managing complex branching strategies, and participating in code reviews.
- Implementing secure RESTful APIs to facilitate data exchange and automate complex business workflows.
- Orchestrating local and cloud development environments using Lando and Docker.
- Implementing new core functionalities and modular features while performing rigorous code reviews to maintain high standards of code quality.
- Partnering with cross-functional teams in an Agile environment to translate business requirements into technical solutions while managing task lifecycles and technical documentation.

YooScriptDigitalSolution – Final Year Intern - Project: [MS-LEARNING](#)

February 2025 – June 2025

- Designed and developed a full-stack E-Learning web platform from scratch.
- Developed a RESTful API for managing courses and users, and implemented secure JWT authentication.
- Built a dynamic, interactive user interface using React.js.
- Established a complete DevOps infrastructure (Docker, CI/CD, ELK) to automate and monitor the application lifecycle.
- Integrated a Python-based AI service (Whisper) for video content analysis and transcription.

Summer Internship – Project: [E-COMMERCE](#)

July 2024 – August 2024

- Developed and implemented a complete e-commerce solution including catalog, cart, and order management.
- Designed and built a robust back-office to manage products, users, and orders.
- Implemented customer authentication and integrated the Stripe payment solution.

BNS ENGINEERING - Bachelor's Final Year Intern - Project: [BRNSMART TRAINING CENTER](#)

February 2022 – June 2022

- Designed and developed a comprehensive training management platform.
- Built a back-office in WordPress for managing registrations, accounts, and payments.
- Programmed dynamic management logic with PHP/MySQL for authentication and forms.
- Developed interactive dashboards for activity tracking and created public/private interfaces.

SKILLS

- **Languages:** PHP, Java, JavaScript, HTML, CSS.
- **Frameworks & Libraries:** Symfony, ReactJs, Twig.
- **DevOps & Tools:** Docker, CI/CD, Git, GitHub, ELK, Linux.
- **Databases:** MySQL.
- **Methodologies:** Scrum.

DISTINCTIONS/CERTIFICATIONS

- [Ranked in the top 1% in the Symfony skills test on the WeLoveDevs platform.](#)
- [Scrum Fundamentals Certified \(SFC™\).](#)
- [EFSET English Certificate 70/100 \(C1 Advanced\).](#)
- [Cisco English for IT1 Certificate issued by Cisco.](#)
